

Assembly instruction

Xilo-tree protection

Article-Nr.: WB7, XB7, XB9, XB11

1. Roll up

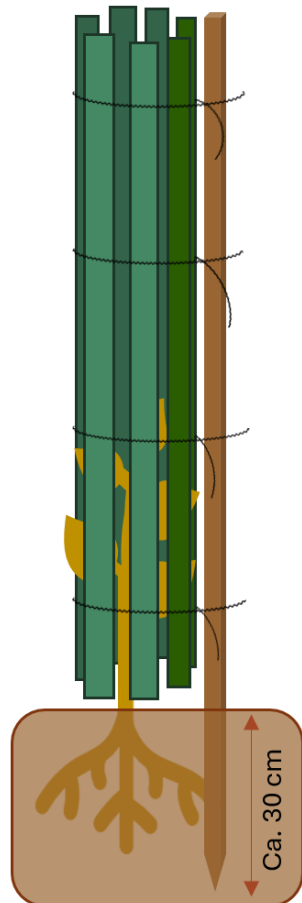

> The Xilo tree protection is rolled around the plant, and then the wires are twisted together.

2. Positioning

> Next, position the Xilo tree protection so that the plant is centered inside it.

3. Attach to the stake

> Finally, the wires are looped around the stake on both sides and twisted together.
